Written Testimony:

I am against the renewal of the Coffin Butte expansion. Republic Services run dump trucks and recycling trucks. Everybody thinks they are doing the economy good by recycling. However they don't recycle anything. All the recycling trucks go straight to coffin butte and dumps them right with the garbage trucks all day long. Thus this is filling the landfill much faster instead of recycling any thing as they should be doing. Why do they run recycle trucks when they dump just them in the dump? This is a proven FACT. People think all recycling goes to recycle, but it don't. Just run one truck and pick it all, since they don't recycle. This would cut down garbage rates, cutting out the recycle trucks. Lets make them recycle not just dump them in the dump.
