Written Testimony:

Last summer I met with my friend at the EE Wilson parking lot. The one with the pheasants. We walked for about 1&1/2 hours. The smell was sour and rotten. I think the dump (just west of where we were) was the problem. It is the reason we cut our walk short. Noxious odors can't be good for humans or the animals of the refuge.

I am an opponent of Republics request for an extension. Corporations exist to make profits for their shareholders. That means they do not live here. They don't care about our quality of life. I understand that Albany Wah Change used to take waste there. I hate the idea that the leachate is being put into our Willamette River.

Don't choose corporate profits over your constituents.
