Written Testimony:

I have lived in Adair Village for 12 years. Over the last four years, the smell from the dump has become worse; air stagnation days haven't changed, only the level of smell. I moved to Adair for access to the outdoors; there are days I can't handle the odor outside and our nine year old doesn't want to go outside (he plays outside in 100 degrees and rain, but not on dump days).

The trash on the side of the road on 99 has reached hazardous levels. As a cyclist I've had to swerve into traffic to avoid it and also had a flat tire because of it. The Republic Waste truck drivers have also driven recklessly on Adair Frontage Road and Camp Adair Road.
