I resent that Republic Services is sending my household text messages supposedly promoting a Clean Benton County. Then encouraging our contacting you, our commissioners, in support of the expansion of Coffin Butte. It wasn't directly from them but the message was clear. They are being sent to us from California area codes (408 and 510 today). It is obvious that corporate is way beyond local.

I object to being the garbage dump for so much beyond our county. I appreciate the planning folks denial of the proposed expansion.

I don't like being told what is good for me and the county which I have lived in for the past 53 years. I voted for each of you and trust you to take care of our county.

Thanks for listening.

Milt Plocher
