Subject: WEB FORM SUBMISSION - LU-24-027 Coffin Butte Proposed Expansion Written Testimony
Date: Monday, October 6, 2025 1:58:29 PM

Subject of Testimony: RE. LU-24-027, the application to expand the landfill.

Full Name: Dr. Gregory S Paulson

Email: gspaul@ship.edu

Mailing Address: 993 NW Cypress Ave, Corvallis, 97330

Written Testimony:

I strongly oppose the land fill expansion because there is a history of reckless management at the current site that includes gaseous emissions that are not only noxious but, since they are of an unknown substances, may, in fact, be toxic and hazardous to my health. I live approximately 7 miles from the landfill and there are still days that I cannot tolerate being outside for more than a short time due to the smell. I wonder, too, if on days when the wind is blowing from the North if some of the dust that is landing on my property is not due to the machinery and equipment operating at the landfill. I have serious concerns that the dust may contain toxic materials that put my household in danger. This is a violation of BCC 53.215 (1): The proposed use does not seriously interfere with uses on adjacent property, with the character of the area, or with the purpose of the FC zone.
