Written Testimony:

Regarding the Planning Commission's decision to deny LU-24-027, Republic Services' Conditional Use Permit application for the proposed expansion of the Coffin Butte landfill: this was the correct decision. I am alarmed and disappointed that the County Commissioners are entertaining more of Republic Services' shoddy science and excuse-making. I would urge each individual Commissioner to consider carefully whether a couple million dollars to be distributed amongst their contractor buddies from the county funds, is worth their impending legacy: each of their names forever attached to a future superfund site, cancer and heavy metals poisoning in Adair Village, which they seem poised to accept.
