Dear Commissioners Wyse, Malone and Shepherd: I oppose the Coffin Butte Landfill expansion because it is an environmental hazard, leachates released into the river and methane gas released into the air. Garbage is trucked in from coastal communities and Salem. The residents of the surrounding area to the landfill have been dealing with increasing odor, dust, noise and litter. There has to be a better way moving forward. The status quo and expansion are not sustainable. Please include my testimony submitted today into the state record on this matter. Thank you,
Dianne Kozak, Corvallis resident for 41 years
