Dear Chair Wyse and Commissioners Malone and Shepherd:

As part of its vocal opposition to the landfill expansion, the public has put a number of videos into the Public Record for LU-24-027.

This one is a short clip (6 min) of the testimony by McKenna Bradley, who raises cows for 4H and is one of the close neighbors of the landfill, and particularly of the parcels being proposed for expansion. She is greatly concerned with the problem of her cows eating the windblown trash from the landfill, and I share her concern, because it's been determined in previous court cases (Riverbend Landfill) that no effective prevention is possible for that issue, other than moving your waste handling indoors.

McKenna will not be able to appear before you in person, so hearing from her directly is well worth your time:

<https://youtu.be/qqjD6Dt8XB0>

Thanks for your consideration on this matter, which is critical to the county's future.
