4/5/77

To: All Area Advisory Committee members and interested citizens
From: Jim Owens, Planning Department
Re: Rickreall-Derry Area Advisory Committee meeting of April 11, 1977

As most of you know, the County's only sanitary landfill site at Fishback Hill will be closing in October 1977. It appears that the County will have to utilize the Coffin Butte landfill site in Benton County at that time. The Chemeketa Region Solid Waste Management Plan lists the Rickreall area as a possible site for a transfer station.

The April 11 meeting of the Rickreall-Derry Area Advisory Committee will include a slide presentation on a) What is a transfer station and b) Alternatives for a transfer site within the County. The presentation will be given by Bill Webber of Valley Landfills, Inc..

Any and all interested citizens are invited to this meeting and asked to bring their ideas about where the County's transfer station should be located.

The meeting will be held at the County Fairgrounds and begins at 7:30 P.M..
