Hello, my name is Robert Biscoe, address is P.O. Box 848 Philomath Oregon.

Commissioner Shepard, Malone and Chair Wyse, Thank you for giving me the opportunity to speak before you tonight. I appreciate your thorough and thoughtful attention to doing your best to fulfill your duty as commissioners to protect the **Health, Safety and Wellbeing** of the Benton County residence that voted you into office.

I am Opposed to LU-24-027 for the expansion for the Coffin Butte Landfill and EMPLORE you to uphold your Benton County Planning Commission Unanimous decision to deny this application.

There is an amazing amount of evidence to up hold that decision due to undue burden, serious interfere that the application does NOT fulfill the proof of burden. Please review Day 8 You tube video of the Republic Services Conditional Use Permit Application Regarding Coffin Butte Landfill Expansion 7.23.25 starting at 2 hrs. 26 minutes.

I request you continue this hearing to allow all the residence that have signed up to testify before you. I believe it is the least you can due allow them to speak on one of the biggest decisions in Benton County History. If the planning and organization of this hearing did NOT plan properly to allow adequate time the citizens should not suffer for poor or planned urgencies.

I agree with the following testimony.

Commissions as you deliberate and
make the Right choice ~~and~~ to deny this
Expansion I look forward to the new
Chapter in Benton County to explore potential
public - Private partnership like Lane County
is doing now.

Let solve our solid waste Problem.

Thank you

Robert Biscoe
