Written Testimony:

I am support the expansion. People do not seem to understand that this is a regional landfill and we in Benton County have relatively low garbage rates because we do not have to absorb the huge infrastructure costs of a landfill by ourselves. Ask Republic or some neutral party what our tipping fees would be without taking trash from other Counties and let folks ponder that. The people that live near the landfill (it was there before they were) are the loudest voices.

The tonnage cap could be reinstated as a compromise perhaps.
