Dear Benton County Community Development,

Moving forward with expansion is unacceptable. The community has shown time and again that expansion does not support our needs or wants. This expansion is clearly an attempt for Republic Services to ignore the needs of the people and ecosystems surrounding this land, only to line their pockets. It has also been shown that the growth they are saying they need will only serve communities outside our region in their dumping needs. We neither want or need to be everyone else's dumping solution at the cost and risk to our community.

I oppose LU-024-27, the expansion of Coffin Butte Landfill, because of the negative impacts such an expansion would have on the environment and because it will seriously interfere with the mostly rural character of the area. If approved, this expansion will also diminish sustainability efforts in the region, and derail alternative waste management initiatives needed to protect Oregon residents. The extent of the landfill's negative impacts are only now beginning to be known. These impacts include unacceptable health effects from polluted air, ground, and water; PFAS and other toxics that flow from the landfill; a weakening of alternatives to waste creation; and a hastening of climate change, to name a few. It would be irresponsible to assert that expanding its operations would not seriously interfere with the air, water, wildlife, and other natural resources that we all share. For these reasons I'm urging you to deny LU-024-27.

Sincerely,

chris Henderson
