Testimony from Kathleen McBride, 3375 NW Firefern Pl, Corvallis, OR:
I am opposed to the landfill expansion being requested by Republic Services. My major concerns are for the water quality affected by the increase of toxic leachate being processed through our water treatment facility and then dumped in the Willamette River, and the air quality in the area from toxic gases. The smell goes for miles now, how much worse after an expansion.
Thank you for this opportunity to give my input.
Kathleen
