We live on Wiles rd approximate 1/2 mile west of the rock quarry. We are greatly impacted by the activities of the landfill and Quarry. The smell has increased profoundly, and the noise as well since they have moved west. We beg of you to deny any expansion of the landfill. Benton county should not be accepting waste from ANY other county's. The negative impact to the wildlife our drinking water, and our land value is not even measurable. We can not plan outdoor events for the worry of the noise and smell generated by the landfill. We are very worried about the impact on our health on a daily basis. We beg of you Please deny the expansion.
